PROFILE

6+ years turning marketing into systems — and systems into revenue. It took me until 25 to find the thing I'd actually run at full speed. That thing was marketing. Then it became code. Then it became systems.

EXPERIENCE

- 2020** **Mozzart — Marketing Manager**
Digital marketing, data analysis, OOH promotion, brand management. The first serious school — big campaigns, big budgets, a fast feedback loop.
- 2021** **Own marketing agency — Founder**
Clients across every industry. Meta advertising, Google Ads, web development, SEO, email, SMS and Viber marketing. 50+ clients over the years.
- 2023 – NOW** **REC · Refam Creative Solutions — Director of Marketing & Development**
Running the whole of marketing and digital development: the web platform, CRM, CMS, campaigns, and the code underneath. Full ownership of the system.
- NOW** **Grow.ba — Founder**
An agency for websites, software, custom systems, CRM, CMS, SaaS, automation and AI API integrations. Built to outbuild, not to out-pitch.
